

## **SB 5669 - DIGEST**

Declares that policies must also include verification of a valid Washington state driver's license. Before an employee is allowed to use a vehicle owned, leased, or rented by a state agency, the agency director, or the director's designee, shall check with the department of licensing and confirm that the Washington state driver's license in the person's possession is valid. If the person does not have a valid license, use of a state vehicle is prohibited.
